## EDUCATION

---

### **Stony Brook University, Stony Brook, New York**

*Master of Science, Computer Science, August 2017 - December 2018 (Expected)*

### **International Institute of Information Technology, Hyderabad, India**

*Bachelor of Science, Computer Science, August 2012 - June 2017*

## EXPERIENCE

---

### **Microsoft, Hyderabad, India**

*Software Engineering Intern, May - July, 2016*

- Developed an application for User Classification and created Cohorts for Cortana (in C#).
- Fast K Means and Hierarchical Agglomerative Clustering was used for scaling to millions of users.

### **International Institute of Information Technology, Hyderabad, India**

*Head Teaching Assistant, Introduction to Databases, Science 2*

- Taught SQL, XML database systems for undergraduate students.
- Designed problems for solving in assignments and lab exams.

## PROJECTS

---

### **Wikipedia Search Engine**

*Information Retrieval and Extraction*

- Implemented an efficient search engine (in Python) on entire dump of Wikipedia data.
- Two level Indexing was done for fast search. TF/IDF based method was used for ranking.

### **Nationality and Ethnicity Analysis**

*Data Science Fundamentals*

- Analyze nationality, ethnicity distribution of community using only name of a person.
- Identified fake followers of popular users on Facebook.

### **Salmon Modules for MultiQC**

*Computational Biology*

- Implemented parser for various modules of Salmon, a quantification tool for RNA-seq reads.
- Generated feature specific plots, heatmap for easier comparison between various samples.

### **Mini SQL Engine**

*Database Management Systems*

- Built a primitive DBMS which can compile, optimize and execute SQL queries (in C++).
- Performed various optimizations such as LRU caching, Paging and Indexing.

### **Document Citation**

*Data Warehousing and Data Mining*

- Applied modified version of Page Rank in citation network to mine authoritative information.
- Predicted Top k authors, conferences and publications (in Python).

## SKILLS

---

**Languages :** C++, Python, C#, MySQL, Javascript, XSB-Prolog

## ACHIEVEMENTS

---

- Ranked 82nd (2016), 98th (2015) at ACM ICPC Asia Amritapuri Regional Finals.
- Problem Setter at Codecraft, an online programming competition held at Felicity, IIIT-H Annual Fest.
- Won 1st prize in Inter batch Badminton tournament held at IIIT-H.
